Christ the King Newsletter

Nov. 2016

With the holidays now upon us, it's both pleasing and disappointing to see the garden in the transformation period from flowering to produce. Hopefully on the children's re-trun they will still be able to see the full circle with fruit still being still in season. Anyway, it's been a great initiative and sparked wonderful enthusiasm and participation. Thank you once again for all of the hard work and effort from parents, teachers and children. Your time and hard work is definitely evident.

'The Gals' continue to be working hard to do what chickens do. On ya 'Gals'!!

CTK COMMUNITY GARDEN NEWS

Both Year Three classes have been working the food scrap bins every lunch time. They have been feeding the chickens and the worms and placing what's left over in the compost bins. This week the green worm farm food tray weighed 10.5 kg. The black worm farm tray was a little lighter at 10 kg. this coming week, no scraps will be added to either farm. At the end of the week each tray will be re-weighed to see if any difference is detectable. Hopefully it'll be a little lighter? This will provide us with information about how much food the worms are able to consume in a week.

Other big news is that the fence has been installed around the chicken coup. Over the past few weeks staff members have been coming in to school on the weekend to let the chickens out or put them in at night. Thanks you to the staff involved in helping out.

A very big thank you is extended to **FENCEMAKERS** who sponsored the project and donated the fencing.

Thanks
